Part 1 – Select Type of Sail and Supply Dimensions

Left Hand Right Angled Triangle		Right Hand Right Angled Triangle		Square or Rectangle		Triangle (not right angled)		Four Sided Polygon	
A	a	A	a	A	a	A	a	A	a
B	b	B	b	B	b	B	b	B	b
C	c	C	c	C	c	C	c	C	c
								D	d
								E	e

The perimeter of each shade sail is designed with a gentle curve inwards towards the center of the sail to control fabric tension. This curve's depth gore could vary 6-12% of the length of each side of the shade sail, and is necessary to keep sail from sagging, flapping and minimize wrinkles when properly tensioned and mounted. The shade sail's dimension are approximately 10% less than the mounting point dimensions to allow for mounting and tensioning hardware and for fabric stretch.

Part 2 – Select Type of Fabric and Colour

Commercial 95 High Density Polyethylene Fabric 340-350 GSM 94% to 98% UV Block 10 Year Fabric Warranty Breathable Fabric unaffected by moisture and temperature extremes.				Sunbrella Solution Dyed Acrylic Fabric 96% to 98% UV Block 10 Year Fabric Warranty Breathable, Near Waterproof.
